Dear Hiring Manager,

My name is Joaquin Zuniga, and I am currently a high school student graduating in 2026. I am writing this letter to introduce myself and express my interest in opportunities related to technology or entry level jobs where I can continue developing my skills and gain experience.

I am a responsible and motivated student who takes pride in completing my work to the best of my ability. I have strong problem solving skills and work well both independently and as part of a team. I consistently demonstrate good time management. I am also comfortable using technology such as Google Docs, Microsoft Word, and other tools and I am beginning to develop programming skills.

Throughout my education, I have taken classes in subjects such as math, english, and technology. This has helped me build a strong academic foundation. I have spent time learning about computers and coding on my own, which has increased my interest in pursuing a career in software development or a related field.

My goal is to continue my education in computer science after high school and eventually work in a career where I can design, build, or improve technology. I am eager to gain hands-on experience that will help me grow, learn new skills, and better prepare for my future career.

Thank you for taking the time to read my letter. I would appreciate the opportunity to contribute and learn, and I am ready to bring a positive attitude and strong work ethic to any opportunity.

Sincerely,
Joaquin Zuniga
